LINES

Direct CONNECT Series

Direct Connect series of lines covers all carp fishing requirements from PE braid, 100% fluorocarbon to 3 unique styles of monofilament in 3 specific colours.

This series of line has exceeded all attributes that modern carp lines need and proves to use the most innovative technologies to date.

Its silky smooth texture and low memory makes the Direct Connect series of lines the "go to" carp lines when wanting to make further, more effortless casts.

This series has been developed to make fishing easier and more pleasurable for all anglers.

Direct Connect is the most manageable carp lines on the market today!

Direct Connect CM90

Direct Connect CM90 is a professional grade Alloy Monofilament and is designed as the most manageable carp fishing mono on the market today. With its increased sink rate, the line gets your bait to your fishing spot quicker and easier which means for an increased catch rate. With extreme abrasion resistance, and low stretch, the silky smooth CM90 has no line twist or memory, which makes for perfect castability and high strength. The green colour is perfect for fishing weedy areas as it blends in to the surroundings perfectly.

- High abrasion resistance
- Higher sink rate
- Super-strong, great casting properties
- Great manageability

Direct Connect CF 600

Direct Connect 100% fluorocarbon is virtually invisible in water and can be used in clear waters when anglers need a stealthy attack. With its increased sink rate, the line gets your bait to your fishing spot quicker and easier which means for an increased catch rate. CF600 is the most supple and soft fluorocarbon on the market today making it the most manageable fluoro to use. With extreme abrasion resistance, and low stretch, the silky smooth CF600 has no line twist or memory, which makes for perfect castability and high strength

- 100% PVDF fluorocarbon
- high sink rate
- supreme abrasion resistance
- ultra-flexible and manageable
- near invisibility

Direct Connect CB2000

Direct Connect 8 carrier braid (0.16mm +) is made from 100% Dyneema fibers which is the world's strongest fiber. It's super high strength, exceptional abrasion resistance and knot strength gives the angler full confidence when targeting BIG carp. CB2000 is designed to cast further and its thin diameter gives anglers the opportunity to fish further distances. The moss green colour is perfect for fishing all areas and blends in the surroundings perfectly.

- Supreme strength to diameter ratio
- No stretch
- Easy casting
- No water absorption
- 100% PE Dyneema fibres

FIRELINE Series

FireLine Original is "The Next Generation of the Smooth Handling Superline™" FireLine = Superline! The term "Superline" was first used when FireLine was introduced in 1996 and it has remained the world's true Superline ever since! Not a conventional braid and not a mono - Thermally Fused FireLine changed fishing forever. Now we have the Next Generation of FireLine. Smoother and tougher than ever with the same powerful strength, smooth handling and fast-casting you know and love! All FireLine is packed in the modern New style Berkley packaging which gives it a super shelf appearance.

The Superline with the highest abrasion resistance!

Now all big diameters flame green in 0.25mm-0.32mm-0.39mm and 0.50mm are available in 600m econo spools.

- Smoother right out the Packaging
- Faster Casting
- Improved color fastness
- Tougher than ever
- Modern and strongly Improved Touch and see packaging

Fireline Fused Tracer

Berkley® Fireline® Fused Original Tracer is the new double colored version that brings you even more benefits like, see the line move when fishing slack line so you indicate a bite perfectly. See much better where you cast as the colors will create a flash it improves visibility. Use the pattern to count distance if you want to adjust just slightly when fishing higher or lower to the bottom.

- Smoother right out the Packaging
- Faster Casting
- Improved color fastness
- This is the Superline with the highest Abrasion resistance
- Lo Vis
- Modern and strongly Improved Touch and see packaging
- Dual color pattern: Yellow and Green

FireLine Crystal 270 - 1800m

Berkley® Fireline® Fused Crystal

The first Translucent Superline, FireLine Crystal was introduced in 2006 and took the world by storm. Thermally fused FireLine Crystal combines the ultimate in low-underwater visibility with all of the FireLine benefits.

Now the Next Generation of FireLine Crystal is smoother and tougher than ever with the same powerful strength, smooth handling and fast-casting you know and love!

- Smoother right out the Packaging
- Faster Casting
- Improved color fastness
- This is the Superline with the highest Abrasion resistance
- Lo Vis
- Modern and strongly Improved Touch and see packaging
- Translucent

NanoFil Clear Mist 50m

Berkley® Nanofil

Not a mono, fluoro or braid -- with the evolving light lure techniques in both Fresh and Saltwater fishing casting performance becomes the most important feature on any fishingline used for this technique. NanoFil has the best casting properties of any fishing line. The Next Generation in Fishing Line! Not only our longest casting line! Its also the most Sensitive fishingline as there is zero stretch! Spinning reel anglers will experience exceptional casting distance and accuracy allowing them to cover more water and catch more fish. Made with 100% Dyneema®, the World's Strongest Fiber, it has an incredibly high strength/diameter ratio, creating our thinnest line per kg test. Winner of 4 international awards, including 2011 Best Fishing Line Product at the Efttex and ICAST Show. You should give it another try if you are not already a big fan like many Pro anglers all around the world. NanoFil helped many top Pro anglers to win at events using all the extra's the line offers to the angler.

Trilene Fluorocarbon Leader 25 - 50m

Trilene® Professional Grade Series

Working together with the input and field testing skills of the Berkley Pro Staff, we have developed a series of Professional Grade fishing lines in two major line segments Fluorocarbon and Nylon Monofilament. All are worthy of the Professional Grade classification and of the Trilene® name!

Trilene Sensation

Professional grade Trilene Sensation has been trusted by our Berkley pro staff for more than a decade. With extreme strength-per-diameter, it is still flexible and manageable. This strength allows us to make it in smaller diameters for better lure action and castability. The breakthrough multi-polymer nylon formula has less stretch and holds more of its strength when wet compared to other nylon monos for sensitivity and control.

A PROFESSIONAL GRADE MONO - EXTREME STRENGTH, SENSITIVITY AND CONTROL

- High linear and knot strength.
- Low memory.
- High sensitivity.
- Smooth
- Easy to tie knots

BAITS

Cutter 90

NEW

The Berkley Cutter Jerkbait turns up the heat at your favorite fishing spot. Artfully handcrafted with a detailed, durable finish fish can't resist, this premium suspending hard bait, designed by Dave Fritts and other pro anglers, keeps the strikes coming fast and furious with a coffin shaped bill that delivers amazing darting action without sidearm. This jerkbait also makes teasing manageable at any experience level with ultra-easy twitch, jerk, pause, and burn movements.

- Suspending jerkbait with long-distance castability
- Versatile -- twitch, jerk, pause, rip, burn and standard retrieves
- Coffin shaped bill allows maximum darting action and side flash with minimal rod movement
- Lunges downward when jerked for added depth

Bad Shad

The Berkley Bad Shad Crankbait helps turn your next fishing trip into a feeding frenzy. Steeped in world class bait engineering and designed by David Fritts as well as other pro anglers, this premium casting crankbait delivers irresistible side rolling and tail wagging action. This tantalizing fishing lure also rises slowly on retrieval, even during pauses, for greater attraction at varying depths. Showcasing the essence of handmade wooden fishing bait with synthetic science, the Berkley Bad Shad Crankbait epitomizes heirloom quality, durability and performance with amazing color and detail, stainless steel split rings and treble hooks, and easy-to-rig design regardless of your experience level.

- Floating jerkbait
- Irresistible side roll and tail wag
- Slow rise at pause
- The premier casting shad

Powerblade

Rigorously field tested by the Berkley Pro Team, the Powerblade is the ultimate finesse blade proven to trigger bites in all conditions. The Powerblade is versatile enough to catch all predators such as zander, perch, pike, trout, chub and much more. Precision engineered to trigger more strikes, it emits a high frequency, fish attracting vibration with minimal rod action. On the drop, the Powerblade glides naturally through the water column enticing fish to follow it down and strike

- Laser cut stainless steel blade
- High frequency vibes
- Sharp hooks

Gulp! Alive Minnow

The Minnow is probably the most versatile shape in the entire range. Simply because it imitates the baitfish which is the favourite food of all predators both in freshwater and saltwater. Its extreme softness gives it an incredible darting swimming action. It catches fish every where, every time.

Gulp! Salmon Eggs

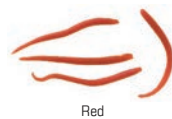

Gulp! Salmon Eggs were originally formulated for catching trout and salmon in fast-flowing rivers. Over the last couple of years carp anglers have added these floating baits to their armoury to give them a number of different presentation options. They can be used in conjunction with normal boilies or fished on their own. Our Berkley Carp Consultants recommend that you add your favourite flavours for maximum effect. By the way, the perfect bait for trout fishing, even in combination with Powerbait Micro Baits (Honey Worms, Sparkle Nymph...)

Powerbait Ripple Shad Bulk

Here we are! The Ripple shad is one of the most successful shads in the World, sold on every continent for all kind of fishes. For it's 8th birthday we offered him more than a facelift....This new version features a higher body softness as well as a new improved Powerbait formula. Last but not least the colour pattern has totally changed as this legendary shad comes now with laminated colours! Comes in a new packaging for improved value for money.

• Conditioned by 25 units

Prerigged Giant Ripple 16cm

Finally a prerigged version for those who want to make sure they use a correctly rigged Giant Ripple. But this one is more than another prerigged, it offers an exclusive system that allow a free 360° turning belly hook. It improves the catch rate by eliminating the leverage traditionally used by the pike by the rigid connection between the lure body and a fixed stinger.

PowerBait Papa Giant

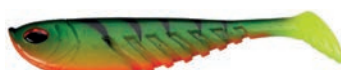

Go big or go home! The Papa Giant is not just a size extension of its little brother the Giant Ripple 20cm. Some tweaks have been necessary to get the best out of the Ripple family advantages on such a big lure. The Papa Giant has a flatter body and reworked tail, but also a belly slot that makes the rigging more easy, the body easy to collapse, and reduces the overall weight without sacrificing the silhouette.

- Powerbait loaded
- Belly slot

- High silhouette

Flex Vamper

The Vamper has been designed with vertical fishing in mind. Made out of a very soft material he will deliver subtle vibrations at anytime. The belly slot offers several advantages, it's place that you can easily load with attractant when needed, but it also provides an even better softness to the whole body and will collapse when a fish bite. The Vamper has also a tail bump under the tail which add more weight at the very end of the body to enhance vertical movements. It can of course be used on a wide gap hook to target pike, bass, or even seabass.

- Pro designed
- High softness
- Belly slot

Flex Stoop Shad

The Stoop shad is the latest one in the Flex family. But it's not just another shape, because each of them have a specific purpose. The Stoop has a thin tail to produce smooth vibes and a round section to get a furtive swimming action. This is the ultimate shape when it comes to difficult conditions. Available in 3 sizes and 8 exciting colours the new Stoop will quickly become one of your favorites for perch or zander fishing!

Flex Slim Shad

The Slim shad has a special flat body to present a large silhouette without pulling too much on the rod, and keep a good penetration in the water. As the 2 other shapes of Flex lures, its body has many ribs to enhance the vibes but also to better hold any attractant you want to apply. A must have in the small size for zander fishing, vertical style, and a clear target for pike and catfish, but also seabass and cod. We add a 4" size that will be perfect for zander fishing, as well as light pike fishing.

URBAN CAMO ND Series

Berkley Urban Camo ND rods are build with the exclusive QLT (Quadra Layer technology). QLT combines all elements to make a rod Both Lighter, faster, more sensitive and stronger. The High tech Carbon Yarn combined with high modulus fibers are woven in order to make the blank super strong and increase the compression resistance. Wrapped by Carbon tape and High Density Graphite reinforce the crack and breaking strength. The result is the New Berkley Urban Camo ND Rod Series. Perfect power transmission and fighting action with enhanced high torque & lifting power.

- QLT Blank design, for Lower Weight and Increased Performance.
- LR composite, further reduce weight
- Perfect fit and lock Reelseats
- EVA Split handle design
- Attractive Urban Style Design

FIREFLEX Series

The Berkley FireFlex series combine Traditional looks with high end features. Berkley FireFlex rods are the right choice for anglers with a passion for quality. The strong Ultra Smooth Guides will provide smooth casting with minimum friction, Using both Standard and Superlines. All rods in the series are built with High Modulus Carbon and will deliver the Power and Sensitivity needed to register any bite and land any fish targeted. The EVA split handle design has great looks and perfect grip.

- Fast action
- Dual Cork split handle
- Classic design
- K design LT guides
- High value for money

PHAZER Series

Graphite Technology delivering remarkable value. Lightweight, responsive carbon composite construction blank delivering exceptional fish-fighting performance characteristics. The hard chromium SS304 guide system is 20 times tougher and up to 55% lighter than conventional guides.

- Carbon composite blank construction
- SS304 guides
- Cork handle
- Cloth bag

Phazer Pro II Spin

The phazer rods have been modernized, a refreshed color pattern is used to do this. the full set has ultra light weight strong guides and cork handles combined with a perfect locking reelseat makes this the rod you always wanted! make your best choice from the 2 or 4 piece rods.

Trout Bait Hooks

Berkley trout bait hooks are ideal for using with the wide variety of Berkley trout bait and are perfect for holding the bait onto the hook due to the small coiled spring on the shank of the hook giving extra grip for moulding the bait too. In addition we have illustrated a rig that is often used for moving the trout bait through the water and is deadly for luring the trout.
