FLY

GR70 Fly Rod Series

A series of fly rods that cover everything, from the 'all-rounders' in GR70, to specialist travel, competition and saltwater rods. There are also the legendary Streamflex rods for all your light line river fishing.

Each rod in the collection features high modulus carbon blank construction, with tapers and actions designed with a specific fishing situation in mind. The saltwater and competition models are made with Powerlux carbon blanks, to give an extra edge in strength, durability and weight.

GR70 Comp Special

Competition rods with an ultra fast action blank. Designed with the latest PowerLux technology, for a fantastic weight to strength ratio. These rods have been designed to cope with the longest and highest density lines giving the reservoir angler the edge over his or her competitors.

- High Modulus PowerLux carbon
- 4 piece construction
- 2 part skeletal reel seat with woven carbon spacer
- AAA cork handle
- Hard partitioned rod tube
- Competition hook size guide
- Rod ID line up marks

GR70 Streamflex Plus

Bringing an extra dimension to the standard Streamflex range - the patented extension section allows the angler to change from a fast action dry fly rod to a deeper action nymphing rod without the need to change reel and line. This small range of 3 rods with matt black finish gives you the edge in any river fishing scenario.

- High Modulus carbon
- 4 piece construction
- 2 part skeletal reel seat with woven carbon spacer
- AAA cork handle
- Hard partitioned rod tube
- Rod ID line up marks

GTS 900

A high specification fly reel for all forms of freshwater flyfishing scenarios. The GTS900 is our flagship fly reel model and is made with full bar stock construction. It is lightweight, but strength is not sacrificed. This, along with high quality components and cosmetics ensures you are gaining excellent value for money.

- Centralised twin Rulon disc drag
- 6061 bar stock aluminium construction
- Tool less conversion form left to right hand wind
- Large arbour design with captive spool release
- Supplied with neoprene pouch

Platinum Shooting Head System

The slick new series of spey lines from Greys incorporate an innovative taper for high speed energy transfer leading to tight dynamic loops. A casting head of around 4 times the length of the rod ensures ease of casting along with perfect presentation at both long and short range. The line comes with a welded loop and is designed to work well with poly tips. The kit consists of a 90 feet (27m) running line, floating or intermediate body and three tips (3,6m), floating, intermediate, and sinking

- Lengths in the table is the head lengths
- Practical short casting head
- Tough loop to loop sink tips (Floating, Intermediate and Sinking)
- Slick running line with large welded loop
- Dynamic taper leading to high energy transfer
- Varied depth control
- Easy turnover of larger flies

COARSE

Toreon Tactical Quivertip

NEW

3/4oz:

Ultra-sensitive for detecting the shyest of bites, perfect for light line/small hook fishing when targeting roach, dace, bream and hybrids.

1oz:

Super-sensitive for showing up bites from silver fish when fishing at mid-range in stillwaters or for general fishing in slow moving rivers.

1.5oz:

This slightly more powerful quivertip comes in useful for showing up shy bites in windy conditions or in bad drift and medium flowing rivers.

2oz:

Ideal for faster flow rates, fishing at extreme distance in stillwaters and using light to medium method feeder tactics.

3oz:

This stiff action quivertip is designed for really fast flowing water and medium to heavy method feeder fishing.

- A comprehensive range of quivertips to cover just about all feeder and bomb fishing requirements.
- Very competitively priced for such premium quality solid carbon quivertips.

Prodigy Micro Mesh keepnet

NEW

Tough, extra capacity keepnet. The three alloy base rings help to sink the net quickly and keep it standing upright in water. The base sections can also be pulled through the upper rings for tipping fish out more humanely. Features a multi adjustable angle lock with a BSF brass bank stick thread and sturdy corner protectors - to prevent premature mesh damage. Free Flow version has a bigger mesh size to cut down resistance when fishing flowing water, also suiting wind swept stillwaters where it won't balloon out of the water easily in strong winds. Micro Mesh version is fish friendly and also helps to hide its contents from predators.

- Rectangular 4.5m keepnet
- Low resistance free flow mesh and fish friendly micro mesh options
- Alloy anti-snap top ring and 3 alloy base rings
- 8 tough intermediate plastic support rings
- Multi adjustable angle lock with a brass screw thread
- Sturdy corner protectors

S.A.P	U.P.C	BARCODE		L-MINI				R.R.P

Prodigy Shelter

Perfect for short sessions as the three section frame format only takes minutes to erect or pack away, also lightweight for easy transportation. Offers more room inside than umbrella shelters due to all support poles being on the outside. Made from tough 210D PU green material, supplied with quality telescopic cam locking support poles and heavy duty steel pegs. The adjustable tension strap has carabiner clips at either end, so if required it can be removed after pegging out. Large enough for a medium bedchair, or two seated anglers, also high enough for most coarse fishing tactics.

- Only weighs 4.4Kg/9lb 11oz
- 3 section frame for speedy erection/packing
- Wide enough for a medium bedchair, or two seated anglers
- Offers good height when fishing without a rod pod
- Made from tough 210D PU material
- Adjustable and removable tension strap

1406934	043388425379		PRODIGY DAY SHELTER	4,4 kg	1	1	G9933	149.00 €

Prodigy Umbrella

A super lightweight umbrella weighing just 2 kilos, which is nearly a kilo lighter than many fishing brollies, but this is also a sturdy well-made product. All of the fibreglass ribs have reinforced contact points with the main PU coated nylon cover, and taped seams to prevent water seepage. Offers a wide span of 210cm/6.9ft and the telescopic centre pole extends up to 212cm/6.95ft. Also features a quick to use partial tilt mechanism, along with a full tilt facility by unscrewing and relocating the centre pole.

- Lightweight system at just 2Kg
- Sturdy, fibreglass ribs
- Robust, PU coated nylon material
- Taped seams

CARP

AirCurve

High quality carp rods with TOREON nano composite blanks. This results in a stronger and lighter material but in no way restricts the action that can be achieved. Designed first and foremost as a performance fishing rod, the action has been developed to provide the perfect balance between fish playing capability combined with exceptional casting performance. The four models in the range cover any Carp fishing situation you're ever likely to encounter.

- TOREON® Nano Composite material
- Carbon Armour™ blank finish
- Lightweight 1k carbon weave throughout
- Deluxe Fuji DPS18 reel seat
- G-lite™ Ultralite SIC guides
- 50mm distance ringing pattern
- Supplied with unique universal adjustable line clip
- Supplied with Neoprene tip and butt protectors
- Available in Abbreviated, Full Japanese Shrink Rubber and Cork handle options
- Laser engraved stainless steel butt cap

NEW

Prodigy Apex

The Prodigy Apex can be best described as the ultimate Prodigy carp rod. The redesigned rod blank is built with Toreon nano composite material technology. This not only makes the blank incredibly slim and lightweight but also gives it increased strength and finesse. The rod action has been specifically designed to get the best out of modern, powerful, overhead casting styles and Torean technology allows for a super fast tip recovery speed; giving the rod a crisp and responsive feel normally associated with ultra high end carp rods. Of course you'll still find the smooth progressive Prodigy action that cushions lunging fish yet gives plenty of power and control when you need it. The sublime woven carbon finish is 2k on the butt and 1k on the tip and features our durable Carbon Armour blank finish. Sleek form and function are provided by the Fuji DPS-18 reel seat, stealth black anodised collars, slim shrink wrap handle and balanced stainless butt cap.

- Torean® Nano Composite construction
- 2K-1k high modulus woven carbon fibre blank
- Crisp progressive action
- Carbon Armour blank finish
- Fuji DPS-18 reel seat
- Full Japanese shrink wrap handle

Prodigy GT 4

The Prodigy GT4 is the fourth generation of the class leading Prodigy carp rod platform. With a completely redesigned blank incorporating high modulus woven carbon fibre we've taken performance up a notch. The smooth progressive action that the prodigy is famous for has been retained with some subtle tweaks to bring it bang up to date for current tactics. Whether it's punching leads and PVA bags out to the Horizon or battling hard fighting fish at close quarters, the Prodigy GT4 will keep you in control. The butt and lower tip section features full 3k woven carbon with our Carbon Armour blank finish. Sleek Fuji DPS-18 reel seat, stealth black anodised collars, slim shrink wrap handle and laser etched butt cap.

- 3k-UD high modulus woven carbon fibre blank
- Classic Prodigy progressive action
- Carbon Armour blank finish
- Full Japanese shrink wrap handle
- Fuji DPS-18 reel seat
- G-Lite guides (black edition)

Prodigy 42in Landing Net

NEW

The prodigy 42' landing net has a slim lightweight 6ft handle that is super stiff thanks to the high modulus carbon construction. It features full 3K woven carbon and our Carbon Armour blank finish. Stainless steel spreader block and arm ends are built to last and allow quick dis-assembly. The green woven net mesh is reinforced for extra durability and has a handy mesh retaining loop. At a medium depth the net is perfect for holding fish in the margins whilst still being maneuverable through the water. The sleek understated graphics are complimented by a slim shrink wrap handle and laser engraved stainless end cap.

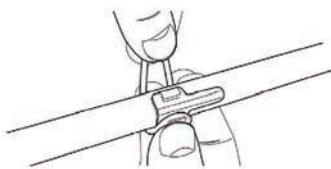

- Carbon arms
- Slim lightweight 6" (1.8m) one piece carbon handle
- Greys reinforced spreader block
- Rubber shrink wrap grips
- Medium depth green mesh
- Net clip and ring
- Matching end cap

CLOTHING

Strata All Weather Jacket

Waterproof, lightweight and breathable jacket. Although designed particularly for boat anglers, this jacket will keep you warm and dry whenever you're out and about. The jacket uses our unique Thermatex 300 fibre filling to keep you warm even when relatively inactive.

- Climatex™ 5000 Gives the angler greater protection in extreme conditions
- Waterproof, lightweight, breathable and rigorously tested by our fishing experts
- Thermatex™ 300 Delivers excellent thermal protection without inhibiting breathability and fast transfer of moisture away from the body Developed to work in tandem with Climatex™
- DWR Coating: Hydrophobic outer coating actively pushes water away from the garment, which vastly improves waterproofing and breathability
- Flo-Guard Cuff Combining a waterproof, flexible neoprene inner cuff with an adjustable shell outer cuff, Flo Guard prevents water from spilling down the wrist and arm while you cast
- Tooltab: Clip or pin your zinger and other tool attachments to the discreet tab when you're fishing Easily remove when you're not Simple
- YKK™ Aquaseal Zips: Allows easy and smooth operation with 100% protection against the elements

Strata All Weather Wading Jacket

The result of rigorous testing by our expert team, the Strata Wading Jacket is the perfect all-round fishing jacket - lightweight, ergonomically cut and including our specially design Flo-Guard cuffs to reduce the unpleasant trickle of water up your sleeve while casting.

- Climatex™ 500:0 Gives the angler greater protection in extreme conditions. Waterproof, Lightweight, breathable and rigorously tested by our fishing experts.
- DWR Coating: Hydrophobic outer coating actively pushes water away from the garment, which vastly improves waterproofing and breathability.
- Flo-Guard Cuff: Combining a waterproof, flexible neoprene inner cuff with an adjustable shell outer cuff, flo-guard prevents water from spilling down the wrist and arm while you cast.
- Tooltab: Clip or pin your zinger and other tool attachments to the discreet tab when you're fishing. Easily remove when you're not. Simple.
- Pockets: Crammed with pockets for carrying spoons, fly boxes and accessories.
- YKK™ Aquaseal® Zips: Allows easy and smooth operation with 100% protection against the elements.
