RITUAL SLO

Large waters and monster fish require the ultimate fighting equipment. Now, carp anglers can present their bait where others cannot even begin to look. The Ritual SLO also impresses with its high-performance gears, making it your future partner for extreme requirements. Thanks to the slow spool stroke, line distribution is also of the highest standard, allowing the thinnest braids to be used and flow effortlessly from the spool.

STANDARD TECHNICAL EQUIPMENT:

- Large-surface multi-disc front drag system
- CNC stainless steel handle
- Anti-twist line roller
- Powerful gears
- Aluminium Long Stroke™ spool
- Aluminium spare spool
- Wormshaft oscillation system

RADICAL BR II

The sister model to the Radical Big Pit for those who love run control reels. Carp anglers especially will appreciate the facility to switch flexibly between a fight anti reverse setting and a preset run control stoppage. To ensure optimal run control function the gears are equipped with 10 high performance stainless steel ball bearings and 1 needle bearing, which is a unique feature for reels of this size and price band. Countless 40lb+ fish will be caught across Europe next season with this reel.

STANDARD TECHNICAL EQUIPMENT:

- Balanced rotor, producing silky smooth action
- Finely adjustable run control system
- Ergonomically designed handle knob for optimal power transfer
- Robust worm shaft power gears
- Deep aluminium spool
- Continuous anti-reverse

AFTER DARK VM

Top big pit reels for the ambitious carp angler. The After Dark VM 570 impressively lives up to this description. The model boasts a high degree of functionality. Besides the optimised long-cast spool, the reel impresses with its high-performance wormshaft gears and ergonomic handle knob. A first-class, smooth-running front drag is obviously essential.

STANDARD TECHNICAL EQUIPMENT:

- CarbonGraphite rotor
- Graphite body
- Finely adjustable large-surface front drag
- CNC stainless steel handle
- Anti-twist line roller
- Robust worm shaft power gears

RADICAL CARP TEASER BR

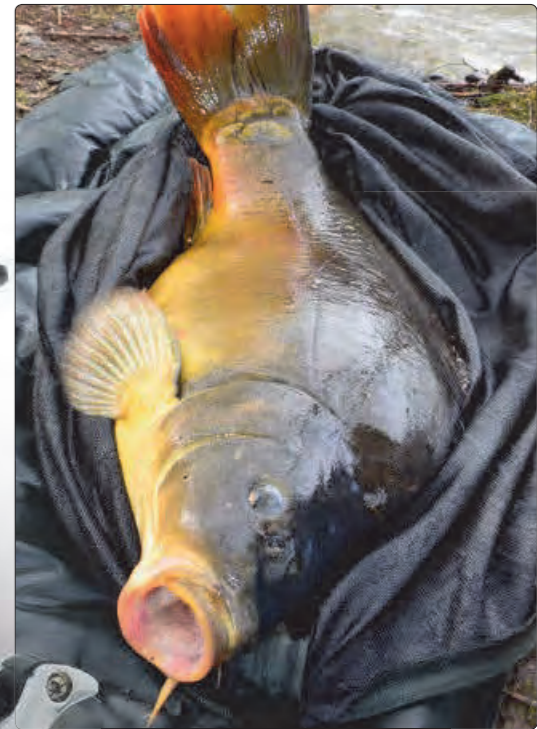

This run control reel has been designed for die-hard angling. We have deliberately dispensed with all of the frills. Whether on the big French reservoirs or the wild rivers of Eastern Europe, this reel impresses with its extreme and unprecedented robustness. The reel has enormous drag strength that will reliably stop even large specimens in their tracks. The drag kicks in reliably and cleanly. A masterpiece among carp reels!

STANDARD TECHNICAL EQUIPMENT:

- Housing produced in aluminium to be completely distortion-free
- Oversized multi-stack drag system
- Finely adjustable run control system
- Non-twist line roller
- Thick bail arm for optimal balance
- Gears made from a super-hard stainless steel alloy
- Continuous anti-reverse

OLD SCHOOL III HARD RIVER
 Hard, harder, Hard River! That is the motto of the dynamic and extremely powerful river rod for taming violent river carp. Robin Illner has tailored the rod to the requirements of river fishing. The result is a parabolic yet highly powerful woven-mesh blank that can withstand the harshest conditions. The rod provides security and fighting pleasure on even the largest rivers in Europe. Additional equipment includes ALPS rings and an FUJI reel holder.

OLD SCHOOL III BATEAU CARPE
 Carp angling from a boat is highly popular at the moment. However, long rods have no place on boats. Short rods offer the ability to tame fish from the boat while making handling far easier. Rigs can also be dropped into wood-filled swims or weed with precision. The elegant rod with cork handle, ALPS rings and FUJI reel holder has been equipped with a powerful 3.5-lb woven-mesh blank.

WARCHILD TELE CARP

Carp angling is becoming ever more global. A few years ago, many carp anglers were content to explore their own country and their closest neighbouring country. Now, tours extend to Morocco, Africa and even Australia. With this in mind, our team has developed an outstanding range of telescopic rods. The action of these telescopic rods is so impressive, it is barely distinguishable from that of traditional rods. The Warchild has enough in its armoury to overcome any opponent!

RUBBY DUBBY BOILIE

Fishy, natural and coarse – everything a carp could wish for! A bait for the future because naturalness counts and at Radical we only use natural ingredients. The success of our baits proves us right:

- Real fish- and shrimp chunks for the „crack and crunch“ effect
- Real fish oils for aroma and flavour instead of artificial fish flavourings
- Bait activates and immediately sets to work in the water since it contains no preservatives
- Top quality flours trigger a feeding frenzy in carp and ensure the bait is digested quickly

PINK TUNA BOILIE

Pink and fishy – those are the attributes of our high-end boilie variety. At times during testing, our team anglers were overrun with carp. Whether in southern France in high temperatures or late autumn in Germany, the Pink Tuna will impress with its incredible attraction in any water temperature. Why is that? The mixture of high-quality, protein-rich basic components is enhanced phenomenally with fish meal. The striking colour also makes carp curious. The result? Continuous buzzing from your bite alarms! Special long-session boilie, high level of attraction despite remaining on the hair rig for long periods.

VAMPIRE GARLIC BOILIE

Garlic has been an absolute secret to success for many years. In this boilie, we have combined the crisp taste of garlic with fresh mint. This combination sends the carp into a frenzy! Just as they did with the Pink Tuna, our field testers also achieved incredible catches with the Vampire Garlic. This boilie would strike fear into Dracula but carp just love it! Protein meal has been used as a base to produce a high-nutrient-value bait. The boilie will tempt large specimens both during short-term sessions and over more prolonged feeding campaigns.

BLOODY CHICKEN BOILIE

These "Radical Bloody amazing" boilies have been developed over countless hours of trials by Quantum Radical team members during the 2009-10 season. German carp ace Benjamin Gründer played a major role in arriving at the perfect blend of ingredients to catch the huge European carp. The ingredients of Radical Bloody Chicken have instant impact with the rapid release of its unique set of attractants. In tests it was found that big fish immediately recognised its meaty flavour and there was no need to pre-bait or "train" fish onto this boilie! The Radical Bloody Chicken is based around a top quality meat base mix, which both promotes digestion, and therefore stimulates more feeding. This contributes to its extremely high levels of attraction. Easily digested and relatively quick to break down in water, the boilie can be used all-year-round and loosed generously without polluting the water.

BLOODY CHICKEN ENERGY DRINK

These "Radical Bloody amazing" boilies have been developed over countless hours of trials by Quantum Radical team members during the 2009-10 season. German carp ace Benjamin Gründer played a major role in arriving at the perfect blend of ingredients to catch the huge European carp. The ingredients of Radical Bloody Chicken have instant impact with the rapid release of its unique set of attractants. In tests it was found that big fish immediately recognised its meaty flavour and there was no need to pre-bait or "train" fish onto this boilie! The Radical Bloody Chicken is based around a top quality meat base mix, which both promotes digestion, and therefore stimulates more feeding. This contributes to its extremely high levels of attraction. Easily digested and relatively quick to break down in water, the boilie can be used all-year-round and loosed generously without polluting the water.

ENERGY PARTICLES

No particle is accepted so readily by carp as the tiger nut. Carp love tiger nuts! Whether this irresistible bait is fed in plain or flavoured form, one thing is certain: carp go into an absolute frenzy when they eat tiger nuts. Our team uses flavoured varieties for rapid attraction but prefer to use natural nuts on longer trips. A perfect complement to our Tiger's Nuts Boilie.

BASILISK CARP BRAID

The Basilisk Carp Braid represents absolute perfection. When it comes to modern long-range angling, high-quality braids are an absolute must! Big fish at long distances is what the Basilisk Carp Braid is all about! A perfect combination of high durability, high breaking strain, high knot strength, minimal buoyancy and practically stretch-free with no bleaching of the line colour by the UV light.

BASILISK FORCE LINK

Our team has introduced this extremely durable and yet soft material in the new range. The leader material is perfectly suited to fishing with anti-blow-out rigs and line-aligner rigs. The fish barely stands a chance of shaking the hook out.

| 2647 035 | 20 m | 15,9 kg / 35 lb | 8.85 |

BASILISK COMBI LINK

Combi-links are practical. Simply peel off a couple of centimetres of the soft coating and you already have a leader soft enough to outwit even the most wary fish without tangling in strong currents or on long casts.

BASILISK POWER KOMBI LINK

A combi-leader with the strength of an ox. Our team developed this leader material for harsh angling conditions on large rivers on stone packing or on large stillwaters with an abundance of deadwood.

BASILISK LEAD CORE

When it comes to catching cautious fish, the line has to lie tight to the bottom. Our leadcore sinks reliably to the bottom of the water so that cautious fish are no longer spooked. Leadcore also offers protection from abrasion against mussels, stones and wood.

BASILISK CARBON HOOKLINE

On clear waters, it is important that the angler is as cautious as the fish! This is where the almost invisible Carbon Hookline comes into its own. The material is also the absolute first choice when making stiff rigs.

WEEDY LEADER
Low-stock waters often harbour very big carp. However, these are usually difficult to catch. This makes camouflage an utmost priority. Our Radical Weedy Leaders look so amazingly authentic that, for a moment, we were speechless. Tests on the water showed that the material is practically indistinguishable from real foliage and aquatic plants. The material is also extremely durable. Sharp edges from shells or stones have no effect. Our tests showed that bite numbers increased dramatically. Available in 2 colours and with different rig connectors.

LINE DIVER

On a drop-back bite, the Line Diver dives down deep and so causes every bite to be indicated. The head incorporates a clip design that holds the line securely without damaging it but releases the line cleanly on every run. The head also has a night-glow function that emits bright colours on even the darkest of nocturnal carp sessions. A 2 oz, continuously adjustable stainless steel cylinder slides along the shaft, ensuring that every bite is seen and heard even when fishing at long range.

ROD POD GIGANTICA

The name says it all: We have forged our masterpiece. With the flagship from the Radical house, the angler is armed for every situation. The Gigantica pod has been developed for professionals who fish the largest reservoirs in southern Europe and North Africa. However, the pod also shows its prowess on the major rivers of continental Europe, such as the Rhine, the Ebro, the Po and the Rhone. When it comes to using a reliable high pod, the two-metre Gigantica is the optimum choice. Our team and test anglers, such as Stefan Seuß, Benjamin Gründer and Robin Illner tested the pod for over two years on the water and tried everything they could to take it beyond breaking point. They failed! The pod is a machine, standing up to any conditions. Material: Aluminium. Accessories: Rod Pod Bag, extra-long pair of legs.

ROD POD FREESTYLE

Freestyle means to go your own way, which can often be the key to angling. For those anglers with foresight, who fish on numerous different waters, we have developed the four-legged Freestyle pod. The pod is equally suited to both extreme river fishing and long-range sport. With its simple yet solid screw attachments, the rod pod is ready to roll in no time and packs away just as quickly. A true all-rounder. Material: Aluminium. Accessories: Rod Pod Bag.

RADICAL DESPERADO BS HOLDALL

Our Desperado Big Session Holdall provides enough space to transport four rigged up rods to France or Italy. There is even additional room for a further two unriggered rods. The Holdall is a veritable storage miracle. The four rods are no longer packed next to each other but at a 180-degree rotation. This gives the holdall the capacity of a 2+2 holdall, which means it can always fit into even small cars. The robust, thickly-padded side walls and central protective wall ensure your valuable rods are optimally protected. The durable outer pocket also features additional compartments for banksticks, a large umbrella, landing nets and much more besides. Material: 100% Polyester

RADICAL SOLO SLEEVE

Our thick padded solo sleeves protect any rod safely and reliably against damage. Individual bags can be convenient and hugely practical at times. What angler hasn't had the problem of the car being packed up to the roof? Individual holdalls can be easier to find room for than conventional large multi-holdalls. Available in 3 different lengths for all rod sizes. Material: 100% Nylon

RADICAL QUICKY QUIVER

Short, one-night sessions are becoming increasingly popular with many carp anglers. Long-winded packing and unpacking of rods, umbrella, landing net, etc. is not what the angler wants during a short session. The new Quicky Quiver caters specifically for the requirements of the "quick" carp angler without making any compromises. The holdall can accommodate up to four rigged-up rods while also offering room for an umbrella, banksticks and a landing net. A robust mesh side-pocket allows wet items in the holdall to dry out. The Quiver also has ultra-robust eyes and carabiners as well as an individually adjustable strap for highly comfortable carrying. Material: 100% Polyester

CARP LANDING NET HEAD

Fish of 40kg and above are now caught on a number of waters throughout Europe. And 20kg fish are commonplace. This means a large, robust landing net and professional carp equipment are now essential. The unsinkable landing net is not only extremely robust but is buoyant and, therefore, cannot sink. Perfect for fishing from a boat. An complete innovation for carp anglers.

BAZINGA CARPNET

Classic landing nets with a triangular design run into problems when landing fish in weed or lilies since the frame folds together. Robin Illner has developed a new oval-shaped landing net for fishing from the bank or boat, which has an all-round fixed metal frame. This allows the fish to be skimmed neatly from the obstacle in a matter of seconds. With its oval shape, the landing net fits easily into a small boat while still offering ample room for fish up to 30 kg. The landing net fits perfectly onto the Radical landing net handle.

RADICAL CARP LANDING NET HANDLE

The Slim-Stick is one of the thinnest and most robust landing net handles on the European carp market. And it is no thicker than a ring finger at the handle. Made from the finest carbon fibre, the handle is almost unbreakable. In testing, our team angler Robin Illner not only netted huge carp but also used the handle for launching heavy balls of groundbait with the bait scoop. In his own words, he tried to destroy the Slim Stick under normal angling conditions. The mission failed!
