Agility

SEA: The trend with sea anglers these days is to constantly hold their rods - unless they are beach casting - so to help take the strain out of a session we have made this range LIGHTER than ever.

While the materials used in all the rods are top notch - and the blue satin finish is extremely pleasing on the eye - what makes all the models able to stand proudly alongside ones costing £200 or more is the thought and perfect design qualities which have gone into each one.

- Slim Carbon Blank
- Zirconium Oxide Guides (ZOG)
- Engraved Aluminum Reel Seat
- Shrink wrap on key handle areas
- Stunning dark blue satin matt blank finish
- Spigot joints
- High quality rod bag
- Travel rod supplied with cordura tube

Agility 2 Beach

NEW

Agility 2 Long Surf

NEW

The 2-4oz version is designed to give maximum casting range with lighter weights and lower diameter braid and mono lines. This lighter casting weight offers outstanding bite detection, but also has power in the mid section and butt to handle bigger fish. The more powerful 4-8oz version is designed to cast heavier leads and baits at maximum range. Both versions are 15ft in length and this makes them easy ultra long range casting rods best matched with fixed spool reels, light braid or mono lines with a shock leader. Perfect for targeting flatfish, whiting, cod, bass, rays and more over clean and mixed rough ground. Perfect for general beach fishing when after flatfish, whiting, bass and sole.

Agility Sea Tipster

Featuring a special supple tip section designed to maximize bite indication, this rod is ideal when targeting smaller species from boats, but still has the power in the mid section and butt to fight bigger fish when needed. Its longer 9' length also allows a greater area of seabed to be covered to search out tiny pockets of specific fish when boat match fishing. Equally this rod is at home on the beach or inside estuaries fishing the margins for flounder, school bass and other small species. Designed in 3-equal sections for ease of transportation, the Agility Sea Tipster features quality Zirconium Oxide rings, which are both mono and braid friendly. The new 11 and 14ft Tipsters reflect the modern trend for sensitive and sporting sea rods. The Tipster rods offer all-round versatility for both shore and boat fishing as blanks incorporate a uniquely designed soft tip to maximise visual bite detection, but carry power in the mid section and butt for casting performance.

- Slim Carbon Blank

Agility 2 Braid Boat

Agility Braid Boat - 6-12lb

This fast taper blank offers outstanding bite detection and can be used for all forms of light drift fishing over sandbanks targeting plaice, dabs, rays, whiting and brill, also for general ground fishing. Also perfect for working lures on light tackle for reef and wreck bass and pollack.

Agility Braid Boat 12-20lb.

Featuring a supple tip designed specifically for fishing braid lines, its 12/20lb action makes it the ideal choice for general drift fishing in deeper water when after rays, turbot and brill, but also for tope over clean ground. It is also popular for working bigger lures over reefs and wrecks when after cod, ling, pollack and coalfish.

Agility 2 Uptide

Rated to cast 5 to 10ozs, this rod is capable of casting heavy weights and big baits well away from the boat for summer rays, bass and tope, also for big winter cod. The supple tip sets over well in to the tide, but reacts quickly to drop back bites, and the rapid transfer of power in to the lower mid-section and butt gives the power to fight big fish back to the boat against a fast tide run.

- Slim Carbon blank
- Zirconium Oxide Guides throughout

Agility 2 HRF

NEW

A new concept rod designed to work small lures and jig heads up to 40gms from boats targeting smaller ground dwelling species such as wrasse, small pollack, cod, coalfish, gurnards, bream, plaice, haddock and whiting. Also used off the shore for wrasse, small bass and pollack.

Agility HRF 10-20g

Rated 10-20g, this fast action blank with a supple tip for bit detection is ideal for working lighter jig heads with small lures over inshore and offshore reefs in light tide conditions, also mixed rough ground for smaller fish including bream, pollack, wrasse, gurnards, pout, codling and plaice.

Sigma Supra

When one of the most famous brands in the history of angling is resurrected by one of the most famous brands in the sport, you know the outcome will be particularly exciting.

That's why we at Shakespeare decided that the name Sigma Supra should be brought back into the company's stable of thoroughbreds following an absence of over 20 years.

Sigma Supra Sea Spin

Oracle Skagit

NEW

This comprehensive range of salmon fly rods includes traditional Spey and modern Scandinavian style actions as well as 6pc expedition versions. These rods display amazing quality, value and performance and will help to continue the famous Oracle legacy. The skagit rods have been developed specifically for use with heavy short head shooting head and skagit lines. The shorter rod length with increased power in this blank will help cast these heavy lines and tips as well as heavy flies when casting in powerful water and when casting is restricted by bankside obstacles.

- High Modulus Carbon Blank
- Aluminium Reel Seat
- Stainless Steel single leg guide intermediates
- Supplied in Cordura tube

Oracle Switch

NEW

This comprehensive range of salmon fly rods includes traditional Spey and modern Scandinavian style actions as well as 6pc expedition versions. These rods display amazing quality, value and performance and will help to continue the famous Oracle legacy. Switch rods are popular when fishing on smaller rivers and when targeting sea trout and Grilse on bigger rivers in the summer. They are very useful when smaller flies and they are called switch because being lightweight they can be cast single handed (like a normal single handed rod) or Spey cast using both hands using the built in extension handle.

- High Modulus Carbon Blank
- Aluminium Reel Seat
- Satin Matt blank finish
- Stainless Steel single leg intermediate guides
- AAA quality Cork
- 6pc and 4pc design
- Supplied in Cordura tube
- Aluminium Reel Seat

Agility 2 Fly

Updating and replacing the tremendously successful Agility fly rod range was never going to be easy! However our rod engineers have managed to exceed our expectations again with this exceptional series of Agility 2 fly rods. Significant improvements include increased blank performance and rod spec combined with stunning new cosmetics. Utilizing a higher grade 36/40 ton carbon produces blanks that are both slimmer and lighter and the actions have been refined to reflect modern trends in faster actions.

- 36/40 ton carbon blank
- Zirconium Oxide Stripper guides
- Engraved Aluminium reel seat
- AAA Cork handles
- Slim Half Wells handle on the 7'8, 8'6 and 9ft versions
- Full Wells handles on the 9'6 10 and 11ft versions
- Removable fighting butt supplied with all rods over 9ft
- Additional 4inch (10cm) extension handle also supplied with the versions over 9'6ft
- Supplied in quality cordura tube

Sigma Supra Fly

NEW

This amazing range of fly rods was developed to hit a key price point but also maximize both quality and performance throughout the range - something Shakespeare is famous for and achieved many times in the past! This comprehensive range of high performance fly rods covers most modern fly fishing requirements from small brook dry fly fishing up to pulling large lures reservoirs. The action of the blanks are medium / fast and combine excellent casting potential with a smooth fish playing action.

- Slim Carbon blank
- Titanium Oxide Stripper Guides
- Aluminium engraved reel seat
- Removable fighting butt and full wells handle on 9ft6, 10ft, and 11ft versions
- Half Wells handle on the 7, 7'6, 8, 8'6, 18
- Supplied in quality cordura tube

Sigma Fly Combo

NEW

These combos provide the fly angler with a complete fly outfit that is ready to fish. The performance and quality of the Sigma fly rods and reels are proven and we have matched the relevant rods with a WF fly line that matches them perfectly. The design of the cordura tube with a hang tag produces a 'great in store' presentation and a label on the packaging contains a QR code that links to a product presentation video.

- Varying blue/white/black color pattern designed to blend naturally with open blue water conditions
- Sigma Graphite reel pre loaded with backing, flyline and braided loopColor-Lock coating technology - casts farther, lasts longer
- Dyneema® PE Microfiber construction is strong, smooth and round
- Fluoropolymer treated microfibers - shoots through guides

Ugly Stik GX2 Kayak

NEW

Three Ugly Stik rods specifically designed for the Kayak angler.

The rods give good bite detection, but concentrate blank power in the mid-section and stiff butt making it easy to fight big fish from a seated position. The shorter class rod is designed for general kayak fishing when targeting a wide range of species. Again it has a sporting long tip/short butt action allowing fun with smaller fish, but stiffens quickly to offer power when fighting bigger fish directly below the kayak. Features the world famous Ugly Stik blank technology, Ugly Tuff guides and lightweight graphite reel seat.

- Ugly Tech Blank construction
- Ugly Tuff guides
- Sensitive clear tip
- Laser etched EVA handle
- 7 years Warranty

NEW

Cypry XT FS

This range includes two price points: Cypry and Cypry XT. Both price points provide exceptional value and quality and cover the key sizes required by modern carp fisherman. The 40 sizes are great when fishing for smaller carp with feeder techniques and also cross over as great specimen reels for barbel and tench fishing. The 60 size is the standard for most specimen carp tactics for short to medium range work. The 80 size reel features a long cast style spool for fishing at longer ranges and heavy duty work as well as for spodding.

- Cypry range:
 - 1+1 bearing system; Reliable and smooth grease felt drag system
 - large diameter bailwire
 - Graphite main spooled with 12lb mono
 - Graphite spare spool
 - Graphite reel handle
 - proven reliability
- Cypry XT range: 4+1 bearing system
 - large diameter bailwire
 - Aluminum main spool

Salt XT Rig Component A

Positioned on the hook trace above the hook, these brightly coloured beads can be used in single or sequence colours to visually attract fish. Also used for general rig making.

Salt XT Rig Components B

Slide-on rubber stops for setting the depth between float and bait when float fishing. Also used on shore and boat fishing rigs as sliding stops to position swivels with hook lengths attached. This allows the hook lengths to be slid up and down and be repositioned on the rig body to alter the way the bait is presented and improve catch rates.
